Re: Application of Southern California Edison Company
(U 338-E) for Authorization to Recover 2021 Incremental
Costs Related to Wildfire Mitigation and Vegetation
Management

To Whom It May Concern:

On June 3, 2022, Southern California Edison Company (SCE) filed its application for authorization to recover 2021 incremental costs related to wildfire mitigation and vegetation management with the California Public Utilities Commission (CPUC). The CPUC has assigned Docket Number A.22-06-003.

The enclosed notice is being published in a newspaper of general circulation in every county within SCE's service territory and will be included as a bill notice provided to every SCE customer. To obtain more detailed information, you may view or download a copy of SCE's filing and supporting testimony on our website, at www.sce.com/applications. You may also request a print copy of these documents from SCE at the address listed in the enclosed notice.

NOTICE OF APPLICATION
Southern California Edison Company's Request to Increase Electric Rates
APPLICATION A.22-06-003

Why am I receiving this notice?

On June 3, 2022, Southern California Edison Company (SCE) filed its application for authorization to recover recorded 2021 costs that are in addition to the amounts already authorized by the California Public Utilities Commission (CPUC) included in current customer rates. These additional costs are related to money SCE spent on important wildfire mitigation work and vegetation management activities. The application is requesting a total of \$327.34 Million.

If the CPUC approves this application, SCE will recover those costs in electric distribution rates over a one-year period beginning in 2023. This will impact your monthly bill.

Why is SCE requesting this rate increase?

- In 2021, SCE completed work necessary to implement its Wildfire Mitigation Plan and execute other important wildfire mitigation activities.
- In 2021, SCE also completed substantial vegetation management work to mitigate wildfire risks related to vegetation contact with electric facilities, comply with required laws and regulations, and promote service reliability.
- All of these costs are recorded in various CPUC-approved cost tracking accounts and are incremental to costs already in customer rates.

How could this affect my monthly electric rates?

If SCE's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 500 kWh per month would increase by approximately \$3.11 or 2.1% per month at the start of 2023. The average CARE tiered residential monthly bill with the same monthly usage would increase by approximately \$2.10 or 2.1% per month.

Bill Impact Table

CARE residential bill	\$100.83	\$2.10	\$102.93	2.1%

How does the rest of this process work?

This Application will be assigned to a CPUC Administrative Law Judge (ALJ) who will consider proposals and evidence presented during the formal hearing process. The ALJ will issue a proposed decision that may adopt SCE's Application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review SCE's Application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information about the Public Advocates Office, please call 1-415-703-1584, email PublicAdvocatesOffice@cpuc.ca.gov or visit <https://www.publicadvocates.cpuc.ca.gov/>.
